### Working out your pricing (some examples)

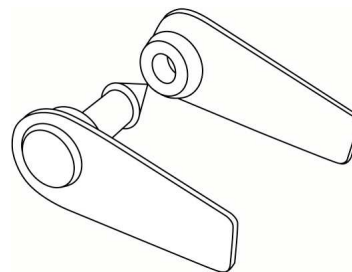

With Supertag Maxi Size 5 with your Name and a management number on a female tag and a blank male button you should calculate;

Tag Cost for female Supertag Maxi (\$0.80) +  
2 lines of Print (\$0.30) = \$1.10  
Plus Tag Cost for male Supertag Button (\$0.46)

This will make the total cost per tags \$1.56 plus Postage.

This option with only 1 line of print with your Name **OR** a management number on a female tag and a blank male button would cost \$1.44 plus Postage.

With Supertag Size 1 with your Name on one side and a management number on the other side you should calculate ;

Tag Cost for female Supertag Small (\$0.46) +  
1 line of Print (\$0.07) = \$0.53  
Tag Cost for male Supertag Small (\$0.44) +  
1 line of Print (\$0.07) = \$0.51

This will make the total cost of the tag \$1.04 per tag plus Postage.
